

MATERIAL SAFETY DATA SHEET

DATE OF ISSUE: May 8, 2023

MANUFACTURER'S IDENTIFICATION

Name	Landscapus Inc
Address	1-909, Xuanlifang, Shunyi, Beijing, China
Telephone No	86 10 6142 8699
Facsimile No	86 10 69450772
Contact	Mr. William ZHANG
Email	tech@landscapus.com
Emergency Telephone No:	86 185 1360 1998

COMPOSITION/INFORMATION ON INGREDIENTS

Product Name	Glass beads for Road Marking	UN Number:	None Allocated
Other Names	Glass Bead, Glass Microspheres	Hazchem Code:	None Allocated
Use	Road Marking (Intermix, Drop On)	Dangerous Goods:	None Allocated
		Class and Sub-risk:	None Allocated
		Poisons Schedule:	Not Scheduled
Physical Description/Properties			
Appearance	Odourless White Powder	Flashpoint (0°C):	Not Combustible
	Granules Ranging in Sizes	Flammability Limits (%):	Not Relevant
	1 to 2000micron	Solubility in Water (g/L):	Non-Soluble
melting Point (0°C)	750°C		
MOther Properties		Packagin	
Hardness	6.0-7 Mhos	25kg/Bag	
Chlorides	<5 ppm		
Specific Gravity	2.4-2.6g	Chemical Composition:	
Free Silica (alpha quartz)	Nil	SiO2<75%	
		NaO2<15%	
		Ca0<10%	
		MgO<5%	

FIRST AID MEASURES

Eye Contact	Irrigate with eyewash solution or clean water, holding the eyelids apart, for at least 15 minutes. If symptoms persist, obtain medical attention.
Skin Contact	Wash affected skin with plenty of water. If symptoms occur obtain medical attention.
Ingestion	Not applicable.
Inhalation	In case of accident by inhalation: remove casualty to fresh air and keep at rest. If symptoms develop, obtain medical attention.

FIRE-FIGHTING MEASURES

General:	Non-combustible.
----------	------------------

Extinguishing Media

As appropriate for surrounding fire.

ACCIDENTAL RELEASE MEASURES

Personal Protection	Wear suitable protective clothing. Wear eye/face protection.
General:	Caution - spillages may be slippery. Avoid generation of dust. Sweep or preferably vacuum up and collect in suitable containers for recovery or disposal.

HANDLING AND STORAGE

Handling	Avoid contact with eyes, skin and clothing. Do not breathe dust. Avoid generation of dust. Wash thoroughly after handling.
Storage	Keep container tightly closed and dry.

EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits	OEL for respirable Cristobalite dust in the workplace atmosphere is 0.3 mg/m ³ in the United Kingdom. For other countries, please consult list as attached.
Respirators	Wear suitable respiratory protective equipment if working in confined spaces with inadequate ventilation or where there is any risk of the exposure limits being exceeded. Advice on respirator protective equipment is given in the HSE (Health and Safety Executive) publication HS(G)53.
Skin Contact	Wear suitable protective clothing and gloves. For example cotton or rubber .
Eye Protection	Chemical goggles.
Other	Wear protective equipment to comply with good occupational hygiene practice. Do not eat, drink or smoke at the work place.

PHYSICAL AND CHEMICAL PROPERTIES

Form	Glass solid .
Colour	White.
Odour	Odourless.
pH (Value)	Not applicable.
Flash Point (°C) [Closed cup]	Not applicable.
Flammable Limits (Lower) (%v/v)	Not applicable.
Solubility (Water)	Insoluble.

STABILITY AND REACTIVITY

Stability	Stable.
Hazardous Decomposition	None known.
Product(s)	

TOXICOLOGICAL INFORMATION

Acute Toxicity	When tested for primary irritation potential, a similar material was practically non-irritating to the eyes and slightly irritating to the skin. The acute oral toxicity of this product has not been tested. A similar spherical glass powder was nontoxic to rats at 5,000 mg/kg. All animals survived, gained weight and appeared active
----------------	---

	and healthy. There were no signs of gross toxicity, adverse pharmacologic effects or abnormal behavior.
Carcinogenicity Information	There are no known reports of carcinogenicity of nonfibrous glass. Prolonged and/or massive exposure to respirable quartz or cristobalite containing dust may cause silicosis, a nodular pulmonary fibrosis caused by the deposition in the lungs of the fine respirable particles.
	IARC assessment: Crystalline silica (quartz) is carcinogenic to humans (Group 1).
Long Term Exposure	There are no known reports of subchronic toxicity of nonfibrous glass. Quartz may cause serious damage to health by prolonged exposure through inhalation.

ECOLOGICAL INFORMATION

Ecotoxicity	No environmental hazards have been reported or known.
-------------	---

DISPOSAL CONSIDERATIONS

Recommended:	The waste is considered to be non hazardous. Disposal should be in accordance with local, state or national legislation.
--------------	--

TRANSPORT INFORMATION

Proper Shipping Name	NOT CLASSED AS DANGEROUS FOR TRANSPORT.
ICAO/IATA	NOT CLASSED AS DANGEROUS FOR TRANSPORT.

REGULATORY INFORMATION

EC Classification	Not classified as dangerous for supply/use.
Hazard Symbol	Not applicable.
TSCA Inventory Status:	Reported/Included.
AICS Inventory Status:	Reported/Included.
DSL/NDL Inventory Status:	Reported/Included.
HMIS:	0,0,0

OTHER INFORMATION

The following sections contain revisions or new statements: All sections.

MSDS data revised May 8, 2023

Information contained in this publication or as otherwise supplied to Users is believed to be accurate and is given in good faith, but it is for the Users to satisfy themselves of the suitability of the product for their own particular purpose. Our Company gives no warranty as to the fitness of the product for any particular purpose and any implied warranty or condition (statutory or otherwise) is excluded except to the extent that exclusion is prevented by law. We accept no liability for loss or damage (other than that arising from death or personal injury caused by defective product, if proved), resulting from reliance on this information. Freedom under Patents, Copyright and Designs cannot be assumed.
