

Technical Data Sheet

Auto Paint Masking Film

Characteristics

HDPE spray plastic film. This non paint adhesive film is perfectly suitable to protect cars or car parts from spray mist. Fastest and easiest way of masking.

Tech Tip

Only mask dry parts.

Technical Data

Material	HDPE
Color	Can be customized
Density	0.947g/cm ³
Tensile strength	67N/mm ² (machine direction)
Tensile strength	28N/mm ² (transverse direction)
Elongation at break	400% (machine direction)
Elongation at break	850% (transverse direction)
Temperature stability	110℃
Dimension	Can be customized
Thickness	Can be customized

Storage and Transportation

12 months storage time.

Storage temperature: +20℃/±10℃

Relative humidity(RH): 30-90%

Storage: in closed rooms and away from sources of sunlight
